SUMMARY

Recent computer science graduate at the University of California, Riverside. Seeking part-time positions while semi-actively pursuing opportunities in software and web development to gain experience. Currently building knowledge in computer science to better define long-term career direction, while contributing to meaningful work in the interim. Ready to collaborate with innovative teams to contribute to impactful projects and eager to start working in the tech industry.

EXPERIENCE

TRÀ BOBA TEA

Customer Service Associate - Boba Barista

Lake Elsinore, CA & Murrieta, CA

JUNE 2021 - July 2022

Food industry and customer service. TRÀ Boba Tea is a family-owned business focused on delivering authentic Taiwanese boba beverages.

- Effectively managed high-volume rush hours by efficiently preparing beverages and coordinating team efforts; ensured timely service and customer satisfaction.
- Maintained store cleanliness, managed inventory, and opened/closed the shop before and after business hours on certain days.
- Demonstrated flexibility by alternating between shop locations to provide necessary support; led to an improvement in schedule adaptability amongst the team.
- Contributed to customer satisfaction shown through an increase in positive monthly feedback on Yelp.

SNAPCHEF || snapchefapp.vercel.app

Full-Stack Developer

Riverside, CA

SEPT. 2023 - June 2024

Senior Design Project at UCR. SnapChef is a social media platform where users can post, browse, and interact with other user recipes. Developed Snapchef in a team of 5.

- Worked in full-stack development using Next.js and used Github for version control.
- Configured a database using MongoDB while adding authentication and password encryption using Javascript libraries (i.e. NextAuth, bcrypt).
- Led the creation of team documents (i.e. status reports, deliverables); resulted in a 50% improvement in organization.
- Facilitated SCRUM meetings and managed sprint planning, increasing team engagement by 20%.
